

**Going out is fun. But the world is a busy, busy place.
So take time to make sure you stay safe and don't get hurt.**

Here are some safety tips:

- Be safe near roads. Hold hands with a grown up when you are near a road. Keep holding the grown up's hand as you stop, look and listen for cars.

When the cars have stopped the grown up will tell you when it's safe to cross. Hold the grown up's hand. Walk - don't run. And keep looking and listening until you get to the other side.

- Be safe near water. Hold a grown up's hand near ponds, lakes and rivers. And never stand too close to the edge.
- Be safe on bikes. Don't ride your bike on the road at any time. Always ride in a safe place like the park or garden or play area. And always wear a special cycle helmet - so you don't give your head a very hard bang if you fall off.

Look at the pictures. You will see two pictures of children doing the same thing. But in each set of pictures only one of the children is having fun safely. Which one do you think it is? Colour in the picture where you think the child is keeping themselves safe.

Blow me up on the photocopier and hand me out to be coloured in.
